Calle Oro Verde Details

Once you turn onto Calle Oro Verde, it is approximately 1.3 miles until you reach Rocas Retreat. On Couser Canyon you will wind around, go up a hill, wind some more, and then go down a hill and the road will curve to the right. Just after descending that hill, you will see a white fence on your left and then the stone entrance to Rocas, also on your left. If you end up going up yet another hill and reaching a dead end, you have gone too far. Turn around, get to the bottom of the hill, and the entrance will be on your right.
